

Sage and Microsoft Windows 7

If you are using Windows 7 or the 64 bit version of Windows 7, we will only provide support for the software that is listed as compatible in the following table. If your software is not listed as compatible, we recommend that you do not install it on Windows 7.

The following table indicates whether or not the relevant version has been tested for compatibility with Windows 7 or the 64 bit version of Windows 7. By stating Yes, we are confident that the software will install and run on this operating system with the same quality and usability as an earlier operating system, for example Windows Vista.

Sage Software	Version	Windows 7	Windows 7 (x64)

Windows 8 is the latest version of Microsoft's operating system.

The following table indicates whether or not the relevant version has been tested for compatibility with Windows 8 or the 64-bit version of Windows 8. By stating Yes, we are confident that the software will install and run on this operating system with the same quality and usability as an earlier operating system.

Tip: For Sage Payroll, the version stated is your program version number, not your licensed version number.

Software	Version	Windows 8	Windows 8 64-bit
Sage 50 Accounts	2014 (v20)	Yes	Yes
	2013 (v19)	Yes	Yes
	2012 (v18)	No	No
Sage Instant Accounts	2013 (v20)	Yes	Yes
	2013 (v19)	Yes	Yes
	2012 (v18)	Yes	No
